Chair's Message

Greetings to the Local Section of American Chemical Society!

We are sending out an abbreviated newsletter to update all of you about several items. To begin, during our April meeting in Wichita we will present awards for outstanding Senior Chemistry students. Instructors who wish to honor outstanding students need to get that information to Dr. Tom Wiese in the next two weeks ahead of the April meeting. See the officer information for contact information for Tom. I would like to take this opportunity to thank Tom for coordinating this effort along with his efforts for the Chemistry Olympiad.

Please be sure to mark your calendars for the April meeting to be held in Wichita on April 20, 2010. More details will follow in the next newsletter. The scheduled speaker is Dr. Ariel Fenster from McGill University who has vast experience in medical, biochemical, and genetically modified products. In fact, Dr. Fenster's talk will focus on genetically modified foods.

Have a great March and good luck to you, even if you are not Irish, and plan on getting together with your local section on April 20.

Gratefully yours,

Robin Jackson, Chair ACS Wichita Section
